Education

DOCTOR OF PHILOSOPHY 2022–2026

Queensland Brain Institute

Advisors: Anthony Harris, Jason Mattingley

Thesis: Determining the role of neural oscillations in perception using model-based approaches

Expected completion: March 2026

BACHELOR OF ARTS (HONOURS) 2021

The University of Queensland

Advisors: Jason Mattingley, Anthony Harris

Thesis: EEG investigation of attention and temporal learning during integrative perceptual decision-making

BACHELOR OF ARTS (EXTENDED PSYCHOLOGY MAJOR) 2019–2020

The University of Queensland

Professional

EEG LAB MANAGER 2022–2025

Queensland Brain Institute, Mattingley Group

SENIOR RESEARCH ASSISTANT 2021–2022

Supervisor: Dr. Angela Renton

RESEARCH ASSISTANT SCHOLARSHIP 2020–2021

Supervisor: Dr. Anthony M. Harris

First author works (*preprints and in preparation*)

Beale, H., Mattingley, J. B., & Harris, A. M. A joint alpha power–phase dynamic shapes visual perception. <https://doi.org/10.64898/2026.02.19.706926>

Beale, H., Mattingley, J. B., & Harris, A. M. Alpha-band oscillations modulate sensory noise in efficient visual codes.

Beale, H., Livesey, E., Sewell, D., & Harris, A. M. Eye-tracking and drift

diffusion modelling tell different stories about contextual cueing.

Beale. H., Harris, A. M., & Mattingley, J. The role of selective attention and learned temporal structure during integrative perceptual decision making.

Beale. H., Gastrell, T., Williams., J. G., & Harris, A. Surround modulation as a possible mechanism for rhythmic visual behaviour.

Registered reports

Harris, A. M., **Beale. H.**, & Mattingley, J. Do oscillations in brain and behaviour reflect a common underlying mechanism? A Registered Report. *Nature Human Behaviour*. Stage 1 in principle acceptance.

making. *Australasian Brain and Psychological Sciences Meeting.*

Reviewing

Journal of Neuroscience

Memberships

Australasian Cognitive Neuroscience Society

Training

*European Summer School for Visual Neuroscience
(Rauischholzhausen/Giessen, Germany, 2025)*

Community contributions and outreach

2023–present	Brisbane Experimental Psychology Student Initiative Organiser and host of monthly meetings in Brisbane
2025	Biomedical undergraduate O-week workshop Postgraduate guest speaker

Teaching

The University of Queensland undergraduate psychology
Tutoring 1st year Research Methods (Statistics) in Psychology, 1st year Introduction to Neuroscience, & 4th year Cognitive Neuroscience
